

The best assurance of sustainable uptime

Spare parts for Alfa Laval compact welded heat exchangers

In demanding process duties, dependability is everything. Alfa Laval has engineered all of our compact welded heat exchangers in exacting detail in order to provide top efficiency and long-lasting performance. Each component is carefully designed and manufactured using specially selected materials so that you can expect the reliability and sustainability that your process demands.

That's why it's so important you also use the right parts when it comes time for maintenance. Only Alfa Laval genuine spare parts designed specifically for your equipment can return your heat exchanger to its original condition and give you full assurance of dependable uptime. With fast, worldwide delivery, we are always here to make sure you get the part you need, when you need it.

Benefits

For Alfa Laval Compabloc, spiral heat exchangers and other types of welded plate heat exchanger technology, using genuine Alfa Laval spares will ensure:

- The best continued thermal fit for your duty and application
- Increased uptime, high productivity and protection against equipment failure for the best guarantee of a safe working environment for your team
- A longer equipment lifespan thanks to longer lasting components
- Reduced cost of ownership over the total lifespan of your equipment

Scope

Alfa Laval genuine spare parts keep your equipment running at peak performance throughout its lifetime. Our high-quality, durable parts put productivity first and extend your equipment's lifecycle, lowering your ownership costs and delivering the reliable operation you have come to expect.

With a worldwide network of service experts, we can also put you in touch with trained technicians to advise on the optimal component for your particular model of heat exchanger and the application in which it is used. Along with fast shipping, it's how we ensure you get the right part at the right time.

When is this service right for me?

Because they are specifically designed for a long operating life with reliable uptime and low cost of ownership under demanding conditions, Alfa Laval welded heat exchangers have a comparatively limited need for routine spare parts replacement. When maintenance is needed, we recommend that you keep a set of genuine spares designed for your unit on hand so you can always

be ready. To further support you and make the process of purchasing spare parts easier and more cost-effective for your operation, we also offer genuine spare parts packages for Alfa Laval Compabloc and Alfa Laval spiral heat exchangers. These include:

- 10% off bolt sets
- One set of gaskets

How do I know I am choosing genuine spare parts?

The simplest way to order genuine spare parts for your heat exchanger is to contact your local Alfa Laval representative or visit us online at www.alfalaval.com.

When purchasing spare parts, here are a number of other tips to consider:

1. Look for the Alfa Laval logo on every packaging and part
2. Ensure the Alfa Laval name and trademark as well as the words "Genuine Parts" are printed on the packaging
3. Review the packing list to ensure that part is genuine
4. Inspect the part number printed on each packaging

When you need the right part at the right time, Alfa Laval is here – with service to keep you growing.

For the market's widest portfolio of welded heat exchangers, Alfa Laval offers an unmatched range of both preventative and reactive services to keep your equipment performing and your business growing. Other services for Alfa Laval welded heat exchangers include:
